February 11, 1986

Dear Voyagers,

There are several very interesting items included in this mailing, the first of which relates to an extremely unusual astrological alignment which occurred on February 9th, the starting date for our project.

One of our Voyagers (I'll tell you who after L.S. lifts his ban of anonymity) is a very talented Astrologer, and on very short notice, prepared the enclosed Evaluation which is marked "Exhibit A". In that same vein, I noticed an article in a periodical titled; Creative Frontiers, published by The Heart Center, P.O. Box 536, Boise, Idaho 83701. This article is labeled "Exhibit B". I was quite surprised to learn all of this, as the choice of starting dates was almost arbitrary, or so I thought! God really does have all things in order.

Another interesting item in this mailing is reading #V-103 (cassette tape, side 1). This reading was conducted during the course of our first 2AM meditation, and is most unique. I won't expand on it here, as the tape explains itself. Side #2 of the enclosed cassette tape contains reading #V-104. It contains follow-up information to the earlier readings, and presents an even clearer view of the scope of the Voyager Project. It would appear that the magnitude of the Project as it is being dealt with on other realms is awesome. Although a number of you have told me that your Guidance said that this was to be a very important Work, I hadn't given much thought to it's importance in other realms.

Here are the items included in this mailing:

1. Cassette tape, readings #V-103 & #V-104.
2. Astrological report, exhibit A.
3. Astrological article, exhibit B.
4. Transcript of previous reading, #V-101.
5. Transcript of previous reading, #V-102.

Finally, I call your ATTENTION to the mailing label on this package. Please make note of the number to be found printed above your name. It is a code which has been assigned to you so that we can report your activities to the group and still maintain your anonymity.

Many Blessings,

Al Miner
