Dear Voyagers,

This has been an interesting time here since our last communication with you. Just about every mechanical device that we have has either stopped working or is malfunctioning in some way. Traditionally, the Easter season is a time of intensity for me personally, and now it appears that the Electronic/Mechanical Deva's are having a similar reaction to the season.

In spite of all of this, you will find a volume of items in the enclosed mailing. I thought about holding some of this back so as not to overwhelm you, but in considering the content of the material, I felt that this is not practical. To ease this situation somewhat, I suggest that you first listen to V-107, and then V-108 and follow the instructions given therein. Then, as you have time, use S-700 and S-701 as suggested below.

Here's what you will find in this mailing:

1. The transcript of reading #V-106.
2. Cassette tape of reading #V-107, titled "Keeping Balance".  
This tape contains questions and answers to a number of aspects of the project to date, and provides some interesting insights to how to approach metaphysical/spiritual study.
3. Cassette tape of reading #V-108, titled "The Spiritual Level".  
Contains guidance for the next segment of the project, plus a number of curiously interesting comments about the coincidence of this segment with a number of forthcoming calendar dates and events.
4. Cassette tape #S-700, titled "Voyage To The Veil".  
This is a guided meditation tape which I have prepared to familiarize you with moving beyond the physical realms, all the way to the "Veil of Darkness" and back. I suggest that you use this tape for 6 consecutive times before using #S-701.
5. Cassette tape #S-701, titled "Journey Into The Light".  
This tape, to be used after #S-700, will take you to "The Sea of Faces" wherein a healing will be done. I suggest that you use this tape 6 consecutive times as well, just to get a good relationship with such movement and Work. So doing will also give you a chance to become balanced in these realms, and give your Guides a chance to do what's needed from their side. Then you may wish to try this on your own.
6. A copy of section A of Guidelines is included for your reference.

We have remembered you all in our prayers during this most blessed season, and hope that this finds you all in the best of health and happiness.

Many Blessings,  
Al Miner
