

Growth By Replacement

Audio: [Growth By Replacement](#)

LAMA SING: The Channel asked in the question number two above, define those areas where ye did well and where ye may have gone astray.

Rather than dwelling upon them and considering them as an obstacle that had to be met, that must be overcome—simply accept their presence, forgive yourself, and let the force of life which flows to them be directed, instead, unto that which you would wish to have in that obstacle's place. Growth by replacement, to coin a phrase. Do you see?

What should you do from this point forward? Well, you can abandon your search. You can change its nature. You can look for other ways to apply it. Indeed, there are perhaps an infinite variety of choices. And there is also this one: You can choose to go forward and now begin to build the dwelling upon that foundation. — 19880203
